

Scott Gilmer, general manager of Applebee's located at I 95 and Hwy 204, has partnered with Sand Hill Elementary School to provide student reading incentives. Students will participate in the "Books Are A BLAST" program. This motivational tool provides a fun way to track the number of books read by each student. The media specialist or classroom teacher initials an apple outline on the certificate at the completion of each book. Students must read 10 books to earn a free kid's meal from Applebee's.
